BiSi.

BUZZ IT, SAY IT!

The classic categories word game, reinvented as a real-time game show: see the letter, check the topic, buzz in and shout your answer out loud. For 2 to 10 friends around the same table.

2–10

What it is.

BiSi turns the classic categories word game into a **real-time reaction quiz**. A letter and a topic, such as "City starting with M", appear on every device at the same moment. Whoever hits the buzzer first gets the floor and **shouts the answer out loud**. The other players vote with a thumb whether it counts.

The phone is just the buzzer and the referee. **The real fun happens around the table**, between real people, with no paper, no pens and no arguing over the scores.

What makes BiSi special.

- **Say it, don't type it:** 4 seconds, then the group decides.
- **Fair buzzer:** millisecond-accurate detection with protection against false starts and button mashing.
- **"Steal the Answer":** in the final 3 seconds, any opponent can strike.
- **Levels 1 to 10:** the time window shrinks from 20 to 2 seconds. First to reach Level 10 wins.
- **Offline or online:** local peer-to-peer over Wi-Fi or hotspot, or via the cloud.
- **Privacy first:** no tracking, no ads, no subscription. Play as a guest, no account needed.

Key facts.

HOW A ROUND WORKS

See the letter. Check the topic. Buzz in & say it!

BiSi.

1

Countdown

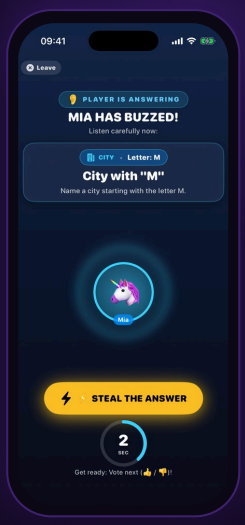

3-2-1, in sync on every device. Tap too early and you lose power.

2

Buzz in

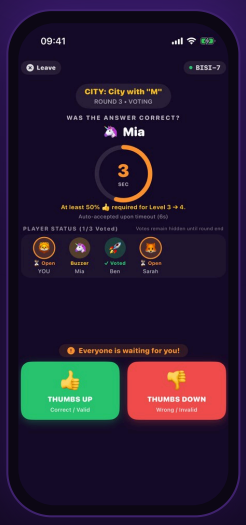

Letter and topic appear. The fastest finger gets the floor.

3

Say it out loud

4 seconds to shout your answer. Or someone steals it.

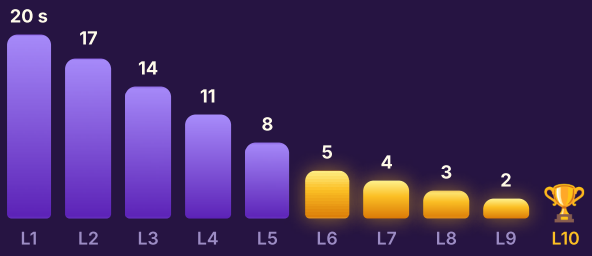

4

Vote

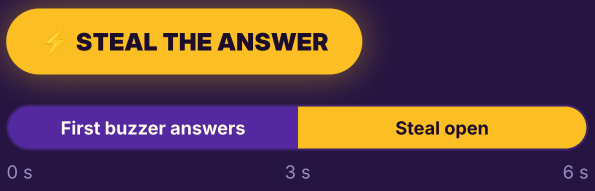

Thumbs up or down. 50% approval or more means level up.

Level system.

Time to buzz in, per level. First to reach Level 10 is the match winner.

"Steal the Answer" mode.

With 3 or more players, the first to buzz gets 6 seconds. In the **final 3 seconds**, the steal button lights up for every opponent. Whoever steals first gets to answer. In a tie, a neutral jury of the remaining players decides.

For editors.

- **TestFlight (version 45):** testflight.apple.com/join/yANVqwV1 – for a meaningful test we recommend at least 3 devices.
- **Press assets:** press release, founder story, screenshots (4 languages), app icon, logo and promo video (16:9 and 9:16)
- **Interviews:** happy to talk about how BiSi came to be.
